blastwalls, or ventilating devices of any kind are visible on any of the buildings.

There is one additional storage building that has nine small pipe vents on the roof (Figures 2 and 3). The building measures 90 by 50 ft and has a floorspace of approximately 4,500 sq ft. There is a lightning arrestor erected on the ground close to each end of the building. The building may be separately secured by a fence within the walled area. [REDACTED]

25X1

There are five small buildings scattered along the southern side of the compound. The purpose of these buildings is not known. An open storage [REDACTED]
